67.2%

10th Grade

Baghbazar Multipurpose Girls' High School

01/2014 - 05/2015

62.7%

PROJECTS

Online Examination System For Descriptive Mode

(02/2021 - 07/2021)

- we developed web application which can be used for conducting online examinations for descriptive examination.
- Teachers can add questions and the answer key for it. Students can give the exam within the time duration as set by the teacher. The answer given by the student will be matched with the answers set by the teacher using suitable similarity matching algorithm. While the students attend the exam, the invigilators can use this module to keep an eye on their activities in order to prevent them for conducting any sorts of malpractices.
- This app has been developed using HTML,CSS for frontend and PHP for backend

Online Medical Shop

- We aimed to develop this webpage which uses HTML, CSS, Javascript.
